EAST AYRSHIRE community profiles

The tables contained in this profile are extracted from 2001 Census Key Statistics for Settlements and Localities published by the General Register Office for Scotland (GROS). As a result this includes information on population, households, employment, education and health for East Ayrshire localities with a population over 500.

The GROS has extracted this information by areas aligned with postcode geographies to retain confidentiality thresholds. It is important to note that by adopting this approach the localities listed in the tables do not match the urban settlement boundaries contained in the East Ayrshire Local Plan exactly and may include some of the surrounding rural countryside.

Further statistical information can be found on the Council web site at:

<http://www.east-ayrshire.gov.uk/keystats/Services.asp>
